1. Introduction

Are your iPhone, iPad & iPod low on space? Free up space on your iPhone, iPad & iPod easily with iConnect series USB Drive. iConnect is equipped with an Apple certified Lightning interface that can be plugged into an iPhone, iPad or iPod directly.

With the dedicated iOS app "iConnect+", you can easily back up all your iPhone/iPad photos and videos, store your precious memories, and make space for your iPhone, iPad & iPod to capture exciting moments at all time! Besides backing up photos, you can also store your favorite movies, music, and files in iConnect USB drive, and play them directly on an iPhone, iPad & iPod by simply plugging in iConnect. Media and files saved on iConnect won't occupy any of your iPhone, iPad & iPod's storage. iConnect is also equipped with a USB 3.0 interface for fast data transfer. Whether transferring data from your computer to your iPhone, iPad & iPod, or backing up iPhone, iPad & iPod data onto your computer, you can now effortlessly piece together every moment of your life with iConnect!

2. Main Features

Backup Photos/Videos
With just one click, you can easily back up all your photos and videos from your Photo library to iConnect USB Drive.

Built-in Camera
The built-in camera function let you take photos, and save them directly on iConnect USB Drive.

File Management
Access all your files in from your iConnect USB Drive.
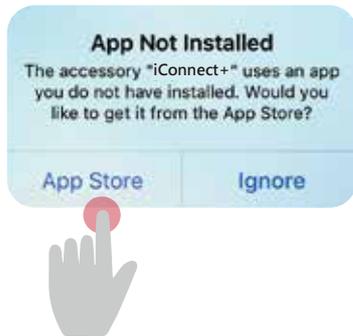

Media Browsing and Playback
For your convenience, you may categorize all your media files, and browse them with friendly User Interfaces designed for each type of media (Photo/Video/Music).

Touch ID Lock/Unlock File
Use Touch ID authentication, you may lock/unlock a file to keep it secured from viewing/opening by other users.

3. Getting Started

If you have not download and install the app, once you connect the iConnect USB drive to your iPhone or iPad, you will be prompted to install the "iConnect+" app from App Store.

If you already installed the "iConnect+" app, you will be prompted to allow communications to your iConnect drive once you connected the iConnect USB drive to your iPhone or iPad.
